

Since 1976, Inspectron has been at the forefront of the document integrity and verification marketplace. Whether a document is an e-passport, ID card, personalized document, credit card or a transactional document, it is important to ensure that all stages of the production are correct. Inspectron systems are both scalable and flexible and designed to meet every budget. *Kathy Rixham, Xplor Mid Atlantic Region member, discussed this solution with John Harvey, President of Inspectron, and passes along what she learned.*

Inspectron

ENSURING DOCUMENT INTEGRITY

Q: Could you provide an overview of your solutions?

A: *Our solutions monitor and maintain the quality of fulfillment environments using a combination of leading software and hardware that could be a camera system, barcode reader or RFID Technology to ensure the integrity of each individual piece being sent out to millions of customers is reaching the right recipient.*

Q: What are the benefits to the Printing Companies?

A: *Our systems are integrated into the production process in order to provide a more automated system. This leads to increased output, a massive reduction in errors and provides them with more effective tracking and reporting.*

Further benefits Include:

- *Extremely scalable and can be introduced to an organization as part of a modular strategy*
- *Enhanced productivity and ensures absolute integrity*
- *Eliminates time-consuming manual checking*
- *Reduced staffing and production costs*
- *Better quality control and improved customer service*

Q: How can we learn more about Inspectron?

A: *Call 866-617-4675 or visit www.inspectron.com to learn more.*

Thanks to the financial support from our "Friends of MAR" vendors, we are able to provide regional educational events such as this. Our Charter Vendors as Friends of MAR include
